### **A message from our Director Neil Edwards**

Well I always said I would never direct but, having had an idea for a few years, I thought it was about time to have a go! I have really enjoyed everything about the new challenge from the planning, picking all the content, holding rehearsals and learning about my directing style. One of the things I have enjoyed most is writing all the linking pieces of material to create the actual story and make my idea come alive.

We have all had lots of fun leading up to tonight and the cast have been fantastic during rehearsals and it has been an absolute pleasure directing them.

I hope you all enjoy the performances of everyone involved and I would like to thank you all for coming to support this fantastic group and to watch my ideas!

## **Cast - The happy couple**

### **Felicity Smyth – Loraine Ratcliff**

It's great to be part of the wonderful world of the Woodies!  
So pleased and proud to be playing Felicity in Neil's debut as a writer and director of the May Show!

These Days are here to stay!

### **Rupert Smyth – Graham Thorburn**

Take a trip down Memory Lane with Felicity and I as we reminisce after 50 years of marriage.

Hope this brings back some happy memories of your own too.
